PROJECTS

Grocify Website | Online Grocery Store

- Designed a clean, user-friendly interface with intuitive navigation to enhance the shopping experience.

Savory Kitchen | Restaurant Website / Food & Beverage Website

- Developed a responsive restaurant website showcasing a diverse menu, fresh cuisine, and an engaging user experience with a modern, customer-focused design.

Swiggy Clone | Food Delivery Web Application

- Developed a responsive food delivery web application featuring restaurant listings, menu browsing, cart functionality, and a modern, user-friendly interface.

Brightly – Business Landing Page

- This landing page is designed to present a business or service in a clean and professional way. It features a responsive layout with sections for the hero, categories, services, about, contact, and footer, making it easy for visitors to explore information.

ACCOMPLISHMENTS

- ✓ Developed practical experience in Front-End Development and responsive web design.
- ✓ Successfully led and managed seasonal promotional activities to improve customer engagement.
- ✓ Strengthened communication and teamwork skills through daily team coordination and collaboration.
