PROFESSIONAL EXPERIENCE

Front-End Developer | Crown Software House & Computer Institute, Mingora, Swat

April 2025 – Present

- Developed and maintained responsive, user-focused websites using React, HTML5, CSS3, JavaScript, and Tailwind CSS.
- Collaborated with design and backend teams to implement clean, efficient front-end code and ensure seamless user experiences.
- Optimized website performance and responsiveness across multiple devices and browsers.
- Contributed to UI/UX improvements by translating design mockups into functional, pixel-perfect web interfaces.

Graphic Designer | Maxtech Computer Institute, Mingora, Swat

December 2025 – Present

- Created branding materials, social media graphics, and visual identity designs for various clients and internal projects.
- Designed impactful visuals using Canva and Adobe Photoshop to communicate brand messages effectively.
- Collaborated with marketing teams to develop consistent and engaging visual content across digital platforms.
- Managed multiple design projects simultaneously while meeting tight deadlines and maintaining high-quality standards.

ACCOMPLISHMENTS

- ✓ Developed practical experience in Front-End Development and responsive web design.
- ✓ Successfully led and managed seasonal promotional activities to improve customer engagement.
- ✓ Strengthened communication and teamwork skills through daily team coordination and collaboration.

PROJECTS

- **Grocify** | <https://my-grocify.netlify.app>
A responsive e-commerce platform for fresh organic fruits and vegetables. Features product listings, shopping cart functionality, and a clean, user-friendly interface optimized for mobile and desktop.
Technologies: React, Tailwind CSS, JavaScript, Netlify
- **Shopsy** | <https://shopsy-ecommerce.netlify.app/>
Built a responsive e-commerce website using **React and Tailwind CSS**, featuring product listings, categories, and a user-friendly shopping interface for fashion, bags, and other products.
Technologies: React, Tailwind CSS, Netlify
- **Medical Landing Page** | <https://healthcare-ui.netlify.app/>
Developed a fully responsive medical landing page using React.js, Vite, and Tailwind CSS with reusable components and a modern UI. Implemented a mobile-first design and optimized performance to deliver a seamless user experience across all devices.
Technologies: React.js, Tailwind CSS, React Slick (Carousel), Slick Carousel, Git & GitHub
- **EstateHub** | <https://real-estates-hub.netlify.app/>
Developed a responsive real estate website using **React and Tailwind CSS**, featuring property listings, detailed property information, pricing, locations, and modern UI components.
Technologies: React, Tailwind CSS, Netlify
- **Swiggy Clone** | <https://swiggyclone-ui.netlify.app>
A modern food delivery web application featuring restaurant listings, dynamic food menus, search functionality, and a fully responsive design built with reusable components.
Technologies: React, Tailwind CSS, JavaScript, Responsive Design
- **Brightly Business Landing Page** | <https://fawad-kahn.github.io/brightly-business>
A clean, professional business landing page with hero section, service categories, about section, and contact form. Designed to present business services effectively with a responsive layout.
Technologies: HTML5, CSS3, Responsive Design, UI Design
- **Savory Restaurant** | <https://fawad-kahn.github.io/Savory>
A premium, fully responsive restaurant website with sections for menu, gallery, customer reviews, contact form, and table reservations. Built with semantic HTML5 and modern CSS3 techniques.
Technologies: HTML5, CSS3, Responsive Design, UI/UX
